

COSHH CHART - Control of Substances Hazardous to Health – COSHH

Using chemicals or other hazardous substances at work can put people's health at risk. So the law requires employers to control this. Products used in hairdressing and beauty therapy need to be listed under **product** heading and then you need to explain:

- What the possible **hazards** of the product are
- How to **use** it correctly and safely
- How to **store** it correctly and safely
- How to **dispose** of it safely
- What special **cautions** you need to take when using, storing and disposing of it

PRODUCT	HAZARD	CORRECT USE	STORAGE	DISPOSAL OF WASTE	CAUTION
